4 **COWGIRLS BARREL RACING**

4.1 Membership Dues Payment – Member Dues are \$150 per season and must be purchased prior to competing for monies won to count in the standings.

4.2 Fees Amount – The required entry fee at all regular season events is \$60 for members and \$70 for non-members. The weekly and bi-weekly events do not have a required entry fee amount.

4.3 Notified Turn Outs (NTO) & Non-Notified Turn Outs (NNTO) Once the draw is posted you are entered and responsible for your entry fee unless you have a doctor/vet release or bereavement excuse. Only three (3) vet/doctor outs a season, any more than two (3) will result in a \$25 fine per use. A Vet/Doctor note is required to be sent to chan@gosebra.com or text to 336 669-8076 within 24 hours of Vet/Doctor out. Any competing member or permit contestant wishing to make a Notified Turn Out must do so by contacting the SEBRA office. Notified turnouts are responsible for paying the entry fee for the event they are turning out of. Turn Out may be paid by contacting the SEBRA office.

Non-Notified (NNTO) will result in contestants having to pay the entry fee for that event and a \$20.00 additional fine. Contestants will not be able to compete in a SEBRA event until all fines are paid.

4.4 The contestant must begin run from mouth of gate or alleyway and move in a

forward direction (cannot enter the arena and set horse), if the gate or alleyway is in the center of the barrel pattern.

4.5 The bars in the alley MUST BE REMOVED OR BURIED (6 or more inches deep) so that the center alley will be completely level, to be deemed safe by the judges. Any gate that barrel racers are required to enter, either center or side, the bar must be removed or buried. When using a center alley in the barrel racing, the barrel racers must leave through the center alley, unless the gate has been closed. Failure to comply will result in a \$100 fine for the producer.

4.6 The barrel racer can be disqualified for turning her horse off before going out the center alley. This is the sole opinion of the judges whether the rider causes this, or he can waive the disqualification if he thinks someone or something in the alley scares the horse.

4.7 There will be a sixty (60) second time limit once the barrel racers name is called to begin their run. One of the judges will keep time and enforce this rule.

4.8 Contestants cannot be required to begin their run from an off-center gate or alleyway. When there is a split or double alleyway, contestants may be required to run from the mouth or alleyway, if they have a choice of either alleyway. When center alleyway is used, it will be posted whether the gate will be open, closed or barrel racer's option to run out. Once a contestant is disqualified, she cannot work her horse.

4.9 Barrel racers are required to wear western attire (long sleeved shirts with collar, wrist length) western hats and boots in the arena, on the back of the bucking chutes and on the

back of the timed event chutes one (1) hour prior to and during the performance time. Barrel racers may not wear worn out jeans while competing. Shirts must be tucked in. Failure to comply will result in a warning for first offense, thereafter a fine of twenty-five dollars (\$25) per occurrence. Barrel Racers can wear helmets while competing.

4.10 Contestants are required to be in western attire during open arena and grand entry.

4.11 Barrels are to be set on the inside of each stake in a cloverleaf pattern.

4.12 Judges are responsible for measuring, staking and marking of the barrels and score-line, before the beginning of the first performance and thereafter measured off by judges before each performance from such stakes, to determine if stakes are still in their original places, measuring to be done with tape measure. Judges must turn in barrel stake and score-line measurements, in feet and inches, to rodeo secretary for recording before the first performance. Electric timers will be staked or marked and reset over that stake or mark for each performance. Judges will be responsible for setting up electric timers. Before setting the barrel pattern, take into consideration where the electric timers are to be set. Allow enough room to get cord to announcer's stand or suitable area. Make sure there is access to power if needed. Do not set course too wide for the electric eye to line up.

4.13 Secretary is responsible for posting barrel stake and score line measurement sheet prior to the event, as well as the draw, and the order of events before check- in. Failure to comply will result in a \$50 fine.

4.14 The standard barrel course shall be: ninety (90) feet between barrels one (1) and two (2), one hundred five (105) feet between barrels one (1) and three (3) and two (2) and three (3); sixty (60) feet from barrels one (1) and two (2) to score-line; Sixty (60) feet from score-line to the end of the arena for stopping room if the arena allows; no less than 45 feet. Decision is subject to Director Approval. To set course, measure length and width of arena to determine if standard course can be set. Measure score-line and stopping distance, then set barrels one (1) and two (2). Make an arc on the ground from barrel one (1) and barrel three (3) - then from barrel two (2) to three (3). Set the marker for barrel three (3) where the arcs cross, being sure that barrel three (3) is at least twenty (20) feet off the back of the arena fence. Measure score-line from both barrels one (1) and two (2) to be sure that the distance is equal for contestants going to either the right or left barrel first. Barrels one (1) & two (2) will be set a minimum of eighteen (18) feet off the arena fences unless arena is one hundred (100) feet or less in width, then barrels one (1) & two (2) will be possible. If arena size does not permit standard course, measurements in proportion to the size of the arena shall be used, shortening the distance between barrels. The standard course lengths cannot be exceeded. If score-line is less than the maximum sixty (60) feet, there must be a minimum of fifty (50) feet from the chutes or arena fence for stopping room, unless the arena has a center gate or alley, and contestants are allowed to run out the gate. When distance between barrels (1) one & 2 (two) is reduced from standard pattern, for every 10 feet barrels are reduced between (1) one & (2) two. The maximum distance between barrels (2) two & (3) three shall be reduced by (5) five feet.

- 4.15 When staking barrels** for a center alleyway the patterns will be staked starting with the alleyway and measuring equal distance from each side of gate (not the arena).
- 4.16 The arena must be worked** after twelve (12) barrel racers have run. The arena must be worked before each performance and before slack. During the slack arena must be worked after the same number of positions offered in performance, not to exceed twelve (12) barrel racers. (Clarification: Rodeo management may work the ground after fewer than twelve (12) barrel racers have run, but no more than twelve (12) barrel racers may run without working the arena.)
- 4.17 The performance must be filled before allowing slack.**
- 4.18 A contestant will not be disqualified** or penalized for touching a barrel.
- 4.19 Over aggression on a horse** may result in a fine or disqualification. The fine amount or disqualification will be at the discretion of the Officials and/or SEBRA representative at the event.
- 4.20 If a contestant knocks a barrel over**, there will be a five (5) second penalty for each barrel knocked over.
- 4.21 If all barrels are standing** when a contestant crosses the score-line after completing a qualified run, it is considered a qualified run, even if a barrel falls after she is flagged.
- 4.22 The use of an electric timer is REQUIRED** and must be backed up with a flag and two (2) stop watches. The manual times are to be averaged between the two (2) timers and recorded in hundreds and one zero (0) added to have a time recorded in thousands. If the electric timer fails three (3) times during one performance or two (2) times on the same

contestant, times will revert back to hand flagged times with original stopwatch times to be used on all contestants. Manual times will be used for payoff only when the automatic timer is no longer serviceable.

- 4.23 There shall be no talking** to flagmen, secretary, timekeepers or judges during the barrel racing event.
- 4.24 Both judges will be required to be present** during the barrel racing event with one judge flagging line and the other judge back up timing & watching to see that a qualified cloverleaf pattern is run. The flag judge will flag nose at the start and finish of the race. The line on fence for flagman shall be marked.
- 4.25 Judges may appoint** responsible persons to replace barrels in proper position if barrels have been knocked down by a contestant during a run.
- 4.26 A SEBRA Official will draw** the order in which the contestants will run.
- 4.27 Slack times cannot change after books are closed.**
- 4.28 Barrels used must be (55) fifty-five-gallon size.** Steel or plastic barrels may be used, and barrel covers are permitted. Plastic barrels must be equal weight of steel barrels.
- 4.29 After the barrels have been staked,** no one will be permitted to go around the stakes or barrels for the duration of the barrel racing closer than fifteen (15) feet from the stakes used. Failure to comply will result in disqualification.
- 4.30 A barrel racer must compete in three (3) events** to be eligible to compete at the finals. Barrel only events do count toward the (3) three event eligibility. The barrel only events must follow the same rules as if there were bulls & barrels. Barrel Only Events may be held

in conjunction with horse show events only if the SEBRA Barrels is run before any other classes or exhibitions. You do not have to compete at events in (3) three different locations. For example: If you compete at Giddy Up Ranch Arena in Somewhere, NM on (3) three different dates these count toward the (3) three event rule.

4.31 Contestant will be disqualified, if after crossing score-line and being flagged by the flagman, she re-crosses score-line before completion of a true cloverleaf pattern run.

4.32 Reruns in the barrel race will be taken at the barrel racer's discretion. Barrel Racer may choose to run again at the designated time (at the end of the event or end of slack if event has slack) OR take the average stopwatch times recorded by the timers if they do not wish to run their horse again. Contestants must make their decision before the end of that section of barrel racing. The same rule applies to the slack. If the barrel racer chooses to make their rerun, the ground must be worked regardless of the number of horses that run.

NOTE: A barrel racer will not be asked or given the choice to run immediately after their first run if the timer malfunctions or a foul happens, due to the draw positions to be upheld for the rest of contestants. If the judge cannot decipher the rule as it is written please contact Jeff Canter; Chan Canter immediately and/or a barrel racing director. See contact information for each listed-on page 2 of the directory.

4.33 If the timer malfunctions equal to or MORE than three (3) times all the barrel racing at that event will default to the average stopwatch times kept by the officials.

4.34 It is highly recommended that stock is not watered within twenty-five (25) feet of the barrel stakes.

4.35 No one on foot or horseback, besides contestant, will be allowed to remain in the arena during contestant's run.

4.36 A contestant shall compete in the performance in which they are entered and be ready when called upon to compete or be disqualified from that go round of competition.

4.37 The same horse can run more than one time but with a different rider. The event secretary or the SEBRA office personnel will draw at least five (5) contestants, splitting the contestants riding the same horse.

4.38 You are only allowed to enter one time per performance you are competing/entered.

4.39 Barrel Only Events must have minimum added money of \$500 and at least 10 contestants must enter before the event can be held. Contestants must enter during the specified call-in time. The barrel only events must follow the same rules as if there were bulls & barrels. The only rule exception is that only one judge is required. These may be held in conjunction with horse show events **ONLY** if the SEBRA Barrels is run first before any other classes or

exhibitions.

4.40 Exhibitions are allowed at the producer's discretion. Contestants cannot run the horse they exhibition in any SEBRA performance/slack in the same event or multiple day event. If contestant fails to comply, there will be an immediate disqualification, and a \$100 fine.

4.41 Required Barrel Racing payoff for SEBRA Barrels sanctioned events. The following Barrel Racing Payoff is required for all regular season events.

- 5.2 Short Go Round Stock Draw** - Short Go Round Stock Draw shall be in reverse order, with lowest qualifier receiving stock draw 1st to highest qualifier receiving stock draw last. Event representative may designate re-ride order.
